I listen to K-LOVE FM radio and am concerned that changes LPFM service could force this radio station off the air. K-LOVE is a station that plays music that the entire family can listen to without any profanity or inappropriate lyrics. It concerns me that without this station or stations of this kind the alternatives for music will be poor. It is a struggle to keep kids from listening to inappropriate music with the peer pressure they receive, but at least there is an alternative for them to listen to currently. I don't want to lose K-Love in the Portland/Sandy OR area.
